

# Wireless Access Control Locks

---

## PDQ Smart – Cloud based wireless access control system, GTS Grade 1 Cylindrical Locks. Also available added to an exit device.

PDQ Smart allows you to connect directly to your facility door locks from anywhere using your APPLE iPhone or Android smart phone. This innovative new cloud based access control solution gives you incredible convenience and peace of mind and the ability to lock or unlock doors in your facility. PDQ is so smart it can control a single lock to hundreds of locks, and anything in between.

### Features:

- *Designed for quick installation. Fits standard 161 door prep.*
- *Built-in Bluetooth connects to your Bluetooth BLE enabled smart phone, tablet or PDQ Smart FOB.*
- *Bank level security. Equipped with multilayer door to cloud data security utilizing AES-128 bit encryption for over-the-air transmissions.*
- *Key override function: GTS 116 Entrance (default)*
- *Locking function can be changed to Passage by an authorized credential door holder.*

**Set-Up:** Download the PDQ SMART app from the Apple APP Store for IPHONES or Google Play Store for Android phones, then follow the quick set-up procedure. Enroll new users in less than 5 minutes.

**Ease of Use:** Using the app on your smart phone, one touch on the screen locks or unlocks your door. The phone uses its built-in Bluetooth BLE to control the lock

**Programming:** Through use of the innovative and secure PDQ SMART portal, it's easy to manage facilities in real time from a PC, smart phone or tablet. Add new users, remove users, set up groups to control access rights to specific openings, maintain schedules for regular and after hours access.

**Audit Trail:** The designated security administrator can retrieve and review each PDQ SMART lock to see who and when a user accessed the lock

**Optional: Accessories:** ZBOX relay control device; ZFOB can control up to four locks; ZBRG Ethernet bridge for connecting a facility to the cloud using an existing local area network (LAN); ZBRGSDMA CDMA bridge allows for connecting a facility to use the cloud using a cellular network; ZECHO range extender for larger facilities.

**Warranty:** 2 years
